MET GROUP

MET Group is an integrated European energy company, headquartered in Switzerland, with activities in natural gas and power, focused on multi-commodity wholesale, trading and sales, as well as energy infrastructure and industrial assets. MET has extensive experience operating and developing renewable and flexible assets, thus providing the widest possible support to energy transition. The success of MET is based on three pillars: having talented and highly motivated people on board, operating integrated risk management model, and running businesses more efficiently than the peers. MET Group's mission is to become a leading market player in the European energy market.

BRINGING
NEW ENERGY
TO EUROPE AND BEYOND

SHAREHOLDERS

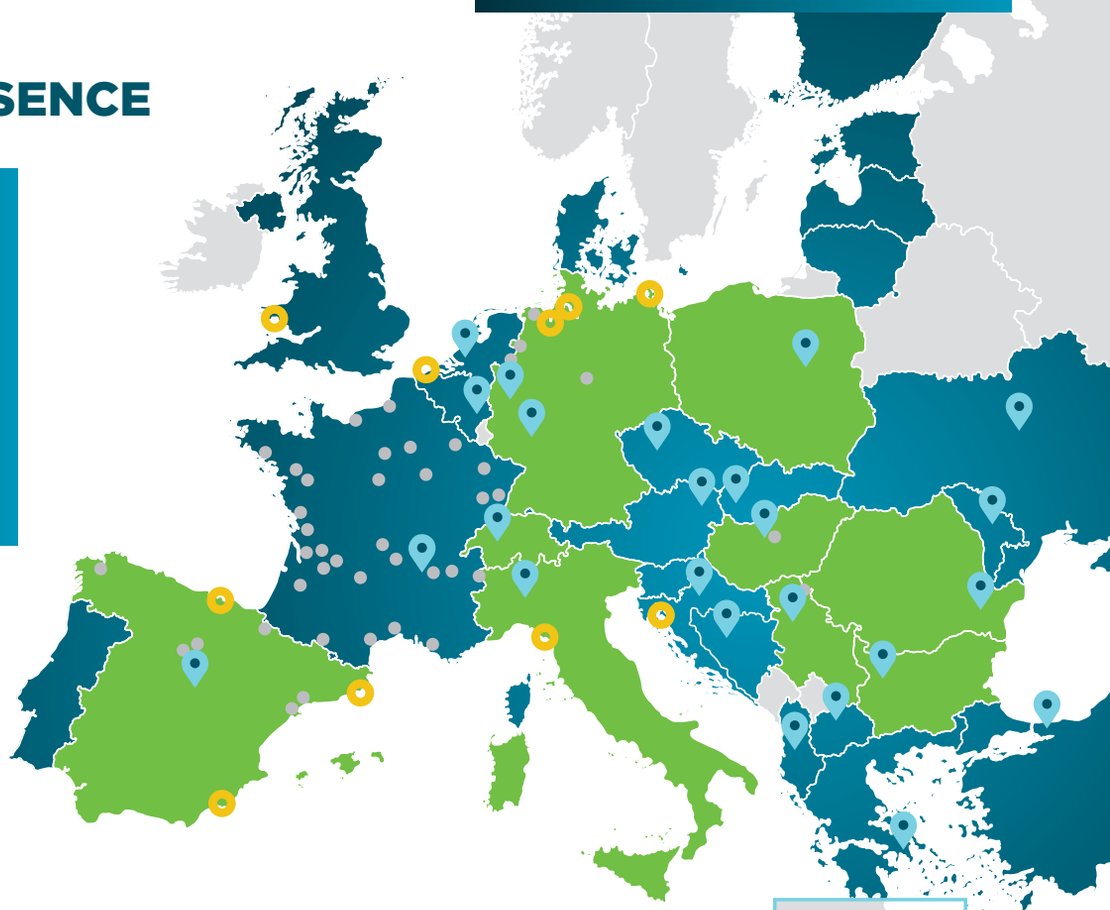
90% owned by MET Employees
10% owned by Keppel Ltd.

REGIONAL PRESENCE

24 Countries via subsidiaries

33 National energy markets

51 International trading hubs



- Subsidiaries
- Flexibility assets
- Trading regions
- Trading regions and renewable activities
- LNG import locations

MET'S POSITION IN THE VALUE CHAIN

GENERATION » STORAGE » WHOLESALE TRADING » SALES

OUR STRENGTHS

- **STRONG MARKET POSITION** via various commodities
- **1400+** highly committed **PROFESSIONALS**
- **RELIABLE ACCESS** to financing
- Sophisticated **TRADING & RISK MANAGEMENT** capability

SEGMENTS AND BUSINESS ACTIVITIES OF MET GROUP

MET HOLDING

SALES AND TRADING SEGMENT

TRADING & WHOLESALE

Integrated trading arm of MET Group, with the purpose of portfolio supply, structuring, optimizing and ultimately risk managing the Group's positions across commodities and trading regions. Furthermore, it provide a market making and structured trading platform for 3rd parties as well as conducting proprietary trading activities.

- Liquidity provider, physical presence and structured trading platform in most European natural gas, LNG, power and environmental certificate markets
- Cross-commodity, cross-border optimization and asset backed trading
- Underwriting mid-long term PPAs to renewable producers

EUROPEAN SALES

A trusted and reliable partner and supplier for our customers across Europe

- With our pan-European integrated approach, we source our gas and electricity from markets and suppliers across Europe, delivering competitive pricing and security of supply for the benefit of our customers.
- With a strong financial standing and headquarters in Switzerland, we are the preferred and trusted reliable long-term partner and supplier of gas, electricity, and energy solutions to all size of end customers across multiple countries in Europe.

RENEWABLES AND ASSET SEGMENT

RENEWABLES AND ASSET SEGMENT

The Renewables and Asset Segment is an integral part of our strategy to drive profitable decarbonization and support the energy transition.

Our portfolio spans across diversified technology classes such as solar, wind, battery energy storage systems (BESS), combined heat and power (CHP), combined cycle gas turbine (CCGT) plants, and other assets such as gas storage facilities, complemented with aggregator platforms that strengthen the flexibility and resilience of European energy infrastructure.

Central to our approach is the integrated value creation with the Sales and Trading Segment, which enables us to unlock optionality and commercial value. Underpinning everything we do is a culture of pride in project delivery, reliability, and safety — positioning us to become a major player in the European renewables and flexible energy landscape while significantly contributing to the success of the energy transition.
